**Maker:** DATSUN

**Modell:** 1000

**Type kjøretøy:** hatchback

**Beskrivelse:** The 2014 Volkswagen Golf, as well as its sporty sibling the Volkswagen GTI, are making their final appearance before the launch of an all-new and totally redesigned 2015 VW Golf. The seventh generation vehicle to bear the name will arrive early in 2014, so the 2014 models will have a short year, and as such, they're purely carryover models. The design of the current car (and the new one, for that matter) instantly marks it as a Golf, with styling cues that deliberately evolve in a recognizable progression.
